

ATR1500

RACK CONVEYOR DISHWASHER 1500 PLATES PER HOUR

PRODUCT DESCRIPTION

Stainless steel structure 18/10 AISI 304. Sturdy counter-balanced door.

Wash tank with rounded edges and inclination, thus ensuring the complete drainage of dirty water.

Stainless steel upper and lower wash and rinse arms that can be easily taken out for cleaning.

High capacity **double-boiler system**.

Double stainless steel surface filters in the tank with an easily removable basket for collecting solid waste.

Ergonomic control panel in order to make the temperatures and the different working steps easily recognisable.

The built-in **W.A.G.P.** system ensures excellent rinsing and prevents dirty water from flowing back to the main water system.

Wide range of accessories and options available **on demand**: drying tunnel (**AZ 75**), splash guard (**PC 75**), rinse aid dispenser, detergent dispenser and probe for lack of detergent.

Entry and exit tables available **on demand**.

Standard equipped with three racks for plates and a rack for tableware.

IPX5 Protection

Option: connection to cold water for a total power of **30,3 kW**
